

## Dexlan

Dexlansoprazole 30 & 60 mg Capsule

### Composition

**Dexlan-30:** Each capsule contains Dexlansoprazole INN 30 mg as enteric coated pellets.

**Dexlan-60:** Each capsule contains Dexlansoprazole INN 60 mg as enteric coated pellets.

### Indication

**Dexlan** (Dexlansoprazole) is a proton pump inhibitor used to treat-

1. Healing of all grades of erosive esophagitis
2. Maintaining healing of erosive esophagitis
3. Heart burn associated with non-erosive Gastroesophageal reflux disease (GERD)

### Dosage & administration

**Dexlan** (Dexlansoprazole) capsule is administered orally. The recommended doses of Dexlansoprazole for adults are as follows:

| Indication  | Recommended Dose | Frequency                     |
|---|------------------|-------------------------------|
| Healing of erosive esophagitis                                    | 60 mg            | Once daily for up to 8 weeks  |
| Maintenance of Healed erosive esophagitis and relief of heartburn | 30 mg            | Once daily for up to 6 months |
| Symptomatic Non-Erosive GERD                                      | 30 mg            | Once daily for 4 weeks        |

### Contraindication

**Dexlan** (Dexlansoprazole) is contraindicated in patients with known hypersensitivity to any component of the formulation. Hypersensitivity and anaphylaxis have been reported with Dexlansoprazole

### Precaution

Patients taking concomitant Warfarin may require monitoring for increases in international normalized ratio (INR) and prothrombin time. Increases in INR and prothrombin time may lead to abnormal bleeding and even death.

### Side Effect

Adverse events are rarely seen; such as diarrhea, abdominal pain, nausea, vomiting, flatulence etc.

### Drug Interaction

**Dexlan** (Dexlansoprazole) may interfere with the absorption of drugs for which gastric pH is important for bioavailability (e.g., Ampicillin esters, Digoxin, iron salts, Ketoconazole).

### Use in Pregnancy and Lactation

Dexlansoprazole is considered a pregnancy Category B medication. This means that dexlansoprazole is probably safe for use during pregnancy, although the full risks are currently unknown.

### Pediatric Use

Safety and effectiveness of Dexlansoprazole in pediatric patients (less than 12 years of age) have not been established.

### Geriatric Use

Safety and effectiveness of Dexlansoprazole in geriatric patients is same as Adults.

**Overdose**

There have been no reports of significant overdose of Dexlansoprazole. It is not expected to be removed from the circulation by hemodialysis. If an overdose occurs, treatment should be symptomatic and supportive.

**Storage condition**

Store in a cool and dry place. Keep away from light and out of reach of children.

**Presentation**

**Dexlan-30:** Each commercial box contains 10X10 capsules of Dexlansoprazole INN 30 mg as enteric coated pellets.

**Dexlan-60:** Each commercial box contains 3X10 capsules of Dexlansoprazole INN 60 mg as enteric coated pellets.
