

KETOF (Eye Drops)

KETOTIFEN BP

Compositions:

Each ml contains Ketotifen Fumarate 13P equivalent to Ketotifen 0.25 mg.

Pharmacology:

Ketotifen is a relatively selective, non-competitive histamine antagonist (H₁-receptor) and mast cell stabilizer. Ketotifen inhibits the release of mediators from cells involved in hypersensitivity reactions. Decreased chemotaxis and activation of eosinophils has also been demonstrated.

Dosage And Administration:

The recommended dose is one drop in the affected eye(s) every 8 to 12 hours.

Contraindications:

Ketof eye drops is contraindicated in persons with a known hypersensitivity to any component of this product.

Warning And Precaution:

To prevent contaminating the dropper tip and solution, care should be taken not to touch the eyelids or surrounding areas with the dropper tip of the bottle. Ketotifen should not be used to treat contact lens related irritation. Patients who wear soft contact lenses and whose eyes are not red, should be instructed to wait at least ten minutes after instilling ketof eye drop before they insert their contact lenses.

Side Effects:

Allergic reactions, burning, conjunctivitis, dry eyes, eye pain, eyelid disorder, itching, keratitis, lacrimation disorder, mydriasis, photophobia.

Use in Pregnancy and Lactation:

There are no adequate data from the use of ketotifen eye drops in pregnant women. Systemic levels after ocular administration are much lower than after oral use. Caution should be exercised when prescribing to pregnant women. Although animal data following oral administration show excretion into breast milk, topical administration to humans is unlikely to produce detectable quantities in breast milk. ketotifen 0.25% eye drops can be used during lactation

Drug Interaction:

No information provided.

Overdosage:

No information provided.

Storage:

Store at room temperature (15°-25°C) and dry place protected from light. Do not use more than 30 days after first opening of the bottle. Keep out of the reach of children.

Packing:

Ketof Eye Drops : 5 ml sterile solution in plastic dropper bottle.
