

DERMACOM

CLOBETASOL PROPIONATE USP; TERBINAFINE HYDROCHLORIDE BP; OFLOXACIN USP & ORNIDAZOLE INN

Compositions:

Each gram cream contains Clobetasol Propionate USP 0.50 mg, Ofloxacin USP 7.50 mg, Ornidazole INN 20 mg & Terbinafine Hydrochloride BP 10 mg.

Pharmacology:

This cream is a combination cream that exhibits anti-bacterial, anti-fungal, anti-protozoal & anti-inflammatory actions. Ofloxacin is a broad-spectrum antibiotic that acts against many gram-positive & gram-negative bacteria. Ornidazole belongs to the nitroimidazole group of antibiotics and is used to treat amoeba and trichomonas infections. Terbinafine is an Allylamine antifungal that inhibits biosynthesis of Ergosterol (an essential component of the fungal cell membrane) via inhibition of Squalene Epoxidase enzyme causing fungal cell death. Clobetasol is a potent corticosteroid that exhibits anti-inflammatory, anti-pruritic, and vasoconstrictive properties.

Dosage And Administration:

Apply by gently rubbing onto the affected area twice daily.

Contraindications:

Contraindicated in patients hypersensitive to any of the components of the formulation.

Warning And Precaution:

Do not swallow. For external use only.

Side Effects:

Burning, itching, irritation & dry skin.

Use in Pregnancy and Lactation:

The safe use of this preparation during pregnancy & lactation has not been established.

Drug Interaction:

No hazardous interactions have been reported.

Overdosage:

Acute overdosage is very unlikely to occur. However, in case of chronic overdose or misuse the feature of hypercortisolism may appear.

Storage:

Store in cool and dry place (below 30°C), protect from light. Keep out of reach of children.

Packing:

Each tube contains 15 gm cream.

Manufactured By:

The IBN SINA Pharmaceutical Industry PLC.

Shafipur, Gazipur, Bangladesh.
